 [@Shasmitha Jegadheesan](#)

Cybersecurity undergraduate with a focus on practical, hands-on learning in penetration testing and defensive security. Experienced in using virtual lab environments to explore attack scenarios, identify vulnerabilities, and understand system protection techniques. Developing skills in ethical hacking, network security, and threat analysis through consistent practice. Seeking an internship in cybersecurity to gain industry experience and contribute to a security-focused team.

TECHNICAL SKILLS

SECURITY TOOLS:

Nmap, Metasploit Framework, Burp Suite, Wireshark, John the Ripper, Dirbuster, CyberChef, Ffuf, Hydra

SPECIALIZATIONS:

Penetration Testing, Vulnerability Management, OSINT, Cryptography, Web Exploitation, Incident Response

ENVIRONMENTS & PLATFORMS:

Operating Systems:

- Kali Linux, Parrot Security OS, Ubuntu Linux, Windows.

Virtualization:

- Oracle Virtual Box, VMWare Workstation Pro 25H2

Security & Training Platforms:

- TryHackMe, Hack The Box, Metasploitable2, GitHub, OWASP top 10

Languages:

- English (Fluent), Sinhala (Fluent), Tamil (Fluent).

TECHNICAL PROJECTS & ACHIEVEMENTS

PERSONAL SECURITY RESEARCH LAB | HOME ENVIRONMENT

- Designed and configured a dedicated hacking lab using **VMware Workstation Pro** to host **Kali Linux** (Attacker) and **Metasploitable2** (Target).
- Performed full-lifecycle penetration tests, beginning with reconnaissance using **Nmap** for port scanning and service identification.
- Successfully executed exploits via **Metasploit Framework** to establish shell sessions and verify system compromise in a controlled environment.

VELVET SHARK STUDIO | CYBERSECURITY PORTFOLIO AND BLOG

- Publishes technical write-ups and step-by-step breakdowns of CTF challenges and lab configurations.
- Translates complex vulnerabilities into actionable documentation, leveraging skills in technical writing and scripting.

COMPETITIVE CAPTURE THE FLAG (CTF) EXPERIENCE

- **ICTS CTF (2026):** Secured 25th place out of 76 teams, advancing to Phase 3. Applied skills in OSINT, web penetration testing, and reverse engineering.
- **Battle of the Multiverse '26 (International):** Participated in a 24-hour challenge covering malware analysis, digital forensics, and full-pwn scenarios.
- **TryHackMe Performance:** Achieved 1st Place in the Gold League (following a 1st Place win in the Silver League), demonstrating persistent improvement in offensive security labs.

EDUCATION

BSC (HONS) IN INFORMATION TECHNOLOGY (SPECIALIZING IN CYBERSECURITY)

Sri Lanka Institute of Information Technology (SLIIT) Kandy UNI

Current Status: 2nd Year, 2nd Semester | Expected Graduation: 2028

SECONDARY EDUCATION

K/Madeena National College: GCE Advanced Level (2021 - 2023)

Hill Country International Girls College: GCE Ordinary Level (2009 - 2020)

SOFT SKILLS & LEADERSHIP

Talent management: Active member of AIESEC in SLIIT Kandy UNI (Outgoing Global Talent department) since March 2026.

Leadership: Served as Senior Prefect at Madina National School; managed student discipline and large-scale event logistics.

Communication: Head of Script Writing for the Media Unit and Sports Union Co-ordinator; experienced in public speaking and technical documentation.

Quick Thinking & Problem Solving: Proven ability to remain calm and analytical under pressure during 24-hour CTF competitions.

CERTIFICATIONS

ISC2:

- Certified in Cybersecurity (CC) Domains

Qualys:

- Vulnerability Management Foundations.

TryHackMe:

Pre-Security Path Completion, Love at First Breach Completion.

Cisco:

- Introduction to Cybersecurity.

SysCare IT Solutions:

- Cybersecurity Webinar (Ethical Hacking Fundamentals).
